Matters arising not on the agenda:

1. Joe mentioned that Hyde were to clear the bike sheds, and what could be stored in them. Most sheds do not have functioning locks. Ray will ask Christine to contact Gary. Also Ray mentioned that the bin shed doors were mostly broken and should be fixed.
2. Lewis proposed that we should get FirstPort to pursue installation of fiber optic cable on the development with Virgin.
3. Also we should get FirstPort to study how car charging points can be installed on the estate,
4. and to ask Hyde Housing to inform their residents regarding the parking regulations.
5. Linking this through to the often delayed meeting with FirstPort about the goal posts which Ray will add to that agenda.
6. Lewis also suggested we have open Zoom meetings through the Leybourne Park Residents facebook page which we all welcomed. This should be applied to the June Meeting, and possibly for the AGM if restrictions are not lifted.
